Blitz Glass was established in 2009 on the Sunshine Coast, Queensland. We have established ourselves as the leading local supplier of pool fencing, balustrading, shower panels and screening.

Over the years we have transformed our business from being a supply & installation business into a wholesale supplier of an extensive range of high quality products to the Trade and DIY market. This transition has allowed us to share our extensive industry experience to assist you with your solutions.

We work with our customers and supply partners to grow together and continue to look for opportunities to offer cost effective and quality solutions.

Blitz Glass is

- a locally owned private business
- dedicated to sourcing top quality products that have met the stringent quality control & testing requirements
- focused on customer service in providing a sales, service & logistic solutions to efficiently deliver on your requirements.
- Committed to holding significant stock levels to ensure quick supply and constantly reviewing new product options.

Trade Supplier / One Stop Shop

Blitz Glass focus on providing complete solutions to trade market on the Sunshine Coast. This clear focus allows us to provide the best in customer service & quality products.

We aim to provide complete systems at our one destination with a focus on the best price. Being a one stop shop we hope to be able to simplify your buying experience and be confident in the quality and compatibility of your finished solution. We are constantly reviewing new products to incorporate into our range that may simplify your installation solution or help meet current trends.

Extensive Range of Products & Competitive Pricing

We pride ourselves on attention to detail in all aspects of sourcing and supply of products. We have developed links to our suppliers who are committed to the highest level of quality. Their sophisticated sourcing, quality control management and distribution facilities allows us to provide quality products at competitive prices.

Serious about Quality.

We ensure our manufacturers provide attention to detail in production, packing and quality control so you can be assured of consistent top quality products. The manufacturer is subject to review and factory audits to ensure compliance to detailed production requirements as set out by SAi Global in conjunction with requirement of AS/NZS 2208:1996. The use of a well renown independent third party conduct inspections, testing and auditing services to ensure processes comply with the latest quality standards.
