HINGES

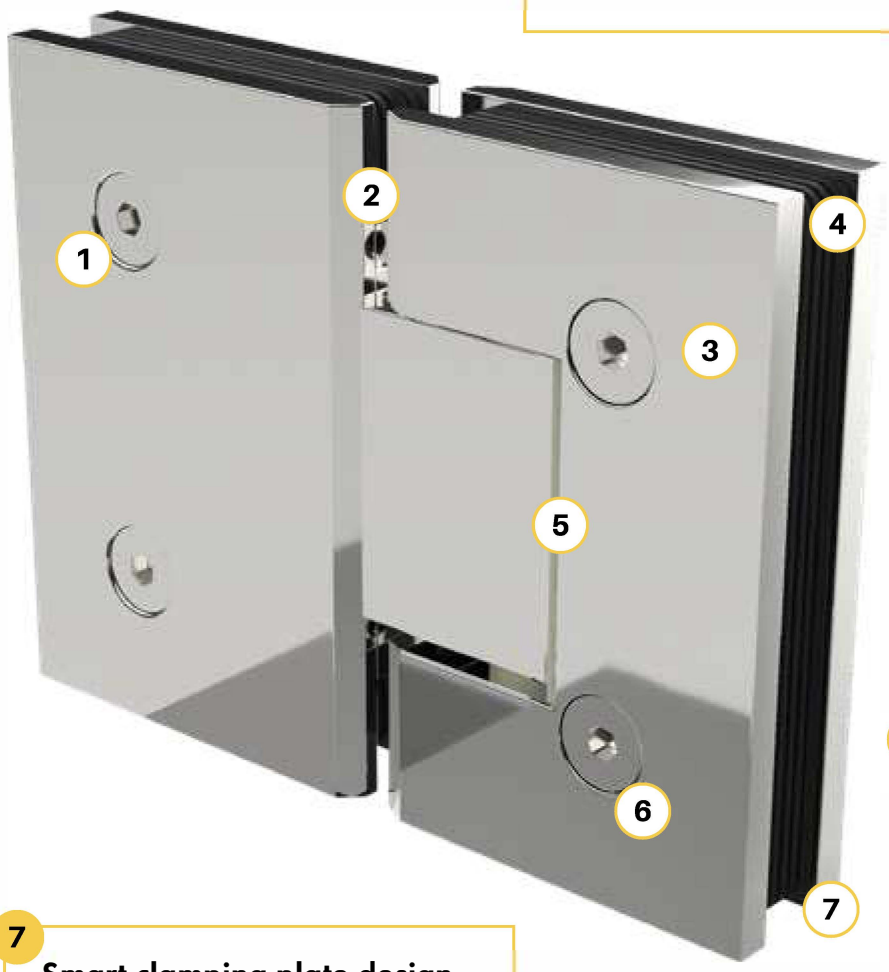
Suits 8mm & 10mm glass panels

1 Optimised hinge plate

Hinge plate hole distance optimised for maximum clamping action

2 Grub screws secured with Loctite

For precaution, Loctite is used to secure threaded grub screws



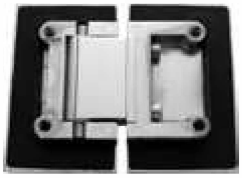
3 Allen key head screws

For ease of installation and to minimise scratching caused by flat head screwdrivers, allen key head screws are used

FREE plastic screw cap covers included

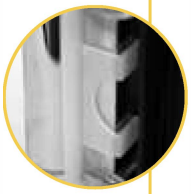
4 Superior quality EPDM gaskets

Gaskets are pre-glued to the hinges and overlapping plates for easy installation



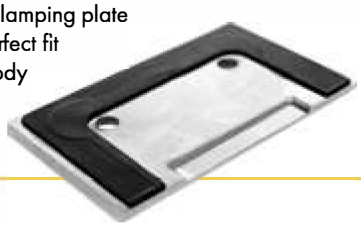
5 Scratch protectors

Neatly positioned protectors to prevent issues when hinge opens and closes



7 Smart clamping plate design

Recessed clamping plate ensures perfect fit to hinge body



6 Knurled back screws

Advantage of superior locking action to prevent screws working loose

Spring design

Durable tempered stainless steel spring

PURITY HINGES ALSO AVAILABLE IN

NERO MATT BLACK / Peare -SATIN- / ORO BRUSHED GOLD

See **pages 16-21** for full range and specifications

Sealed spring cavity

Innovative hinge design allows spring cavity to be completely sealed which prevents water penetration into cavity
