LINEA
FULLY FRAMED KITS

In bathroom design, the trend of minimalism continues to grow in popularity.

Linea complete kits are available for fast and easy framing of 6mm glass with a stylish 25x15mm profile (in bright polish or matt black). A slimline U channel ensures ease of install to walls even if out of square.

An optional horizontal support arm is available which can be width adjusted if required.

Kits include all aluminium extrusions, glazing rubbers, joiners and screws – simply arrange 6mm toughened glass to required size and assemble the frame to the glass. Linea shower screens can be made up to 2450mm high x 1450mm wide.

Contact us for a simple to use cutting list and glass size specifier.

Cost effective, simple and stylish – Linea kits are an ideal bath or shower screen solution.

KITS IN A BOX FOR CUSTOM MADE SIZES

Purchase a complete kit in a box for simple fabrication to suit custom sized glass. Everything required for a Linea frame is in the kit! Simply order 6mm custom glass separately.
