HINGES

Suits 8mm & 10mm glass panels

1

Optimised hinge plate

Hinge plate hole distance optimised for maximum clamping action

2

Grub screws secured with Loctite

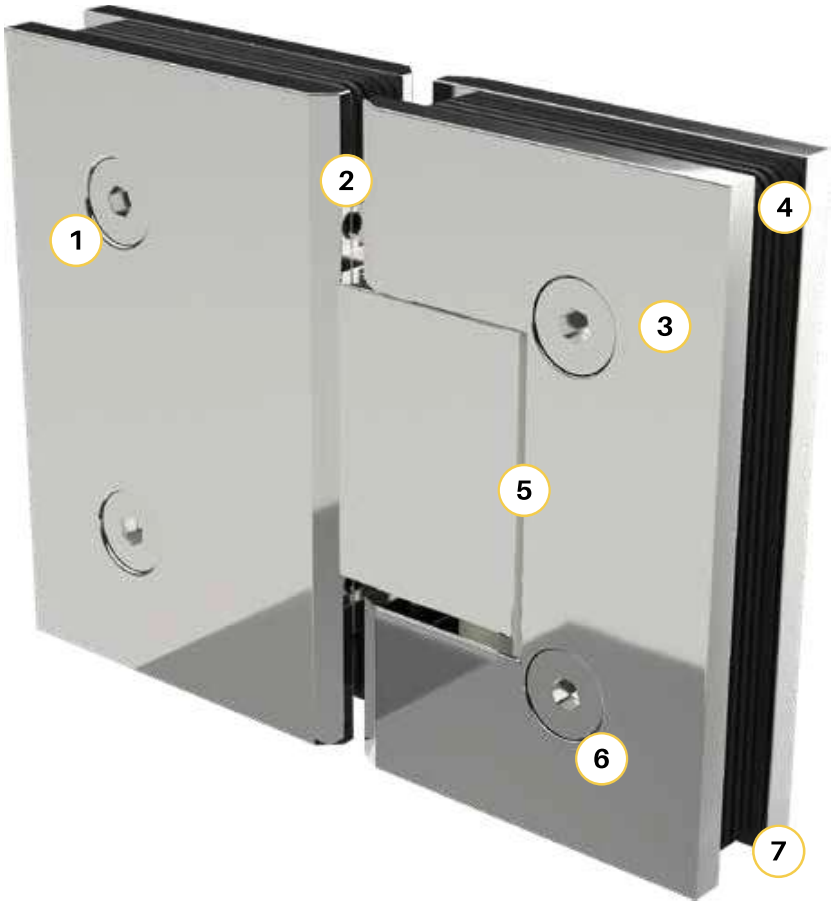
For precaution, Loctite is used to secure threaded grub screws

3

Allen key head screws

For ease of installation and to minimise scratching caused by flat head screwdrivers, allen key head screws are used

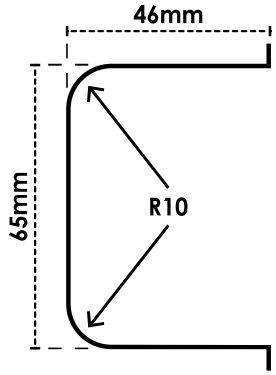
FREE plastic screw cap covers included



GLASS CUT OUT DETAIL

This cut out applies to all hinges

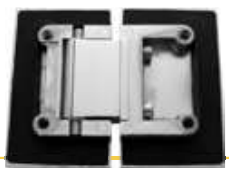
excluding heavy duty hinges & 6mm Zurich hinges



4

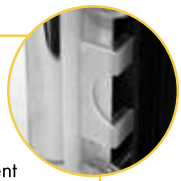
Superior quality EPDM gaskets

Gaskets are preglued to the hinges and overlapping plates for easy installation



5

Scratch protectors



Neatly positioned protectors to prevent issues when hinge opens and closes

6

Knurled back screws

Advantage of superior locking action to prevent screws working loose

7

Smart clamping plate design

Recessed clamping plate ensures perfect fit to hinge body

Spring design

Durable tempered stainless steel spring

Sealed spring cavity

Innovative hinge design allows spring cavity to be completely sealed which prevents water penetration into cavity

PURITY SUPPORT ARMS

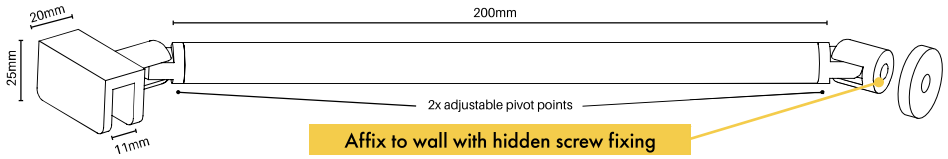
Purity Showerscreens™ adjustable arm bracket

SMALL ARM BRACKET

Chrome plated, matt black, brushed brass/gold, matt white, gunmetal, brushed nickel & pearl satin finishes

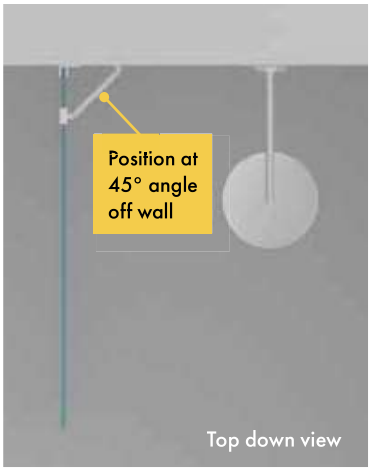
Order Code: **P-ARM-A (Bianco – Chrome)**
PN-ARM-A (Nero – Black)
P-ORO-ARM-A (Oro Brushed Brass/Gold)
P-SNO-ARM-A (Sno – White)
P-GIO-ARM-A (Gio – Gunmetal)
P-NIKL-ARM-A (Nikl – Brushed Nickel)
P-PEARL-ARM-A (Pearl Satin)

- Slimline wall to glass support arm for stabilising single glass panels
- Brace from wall to glass panel at a 45° angle to provide rigidity
- Double adjustability for easy installation; can swivel at both ends
- Unique hidden fixing wall installation for a neat finish
- Suitable for 8mm & 10mm glass
- Compression/friction screws – quick and flexible installation as no holes in glass required
- Manufactured in solid brass with SS304 tube



Easy angle adjustment!

Angle is easily adjustable from both ends of bracket



Easy width adjustment!

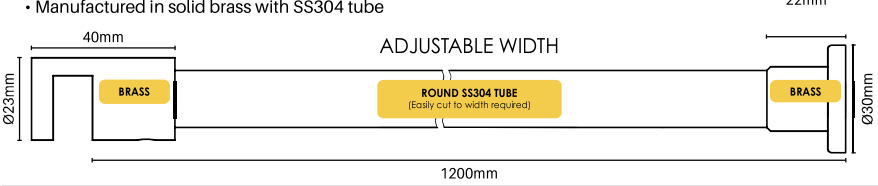
Simply cut to desired length and reattach fitting with grub screws

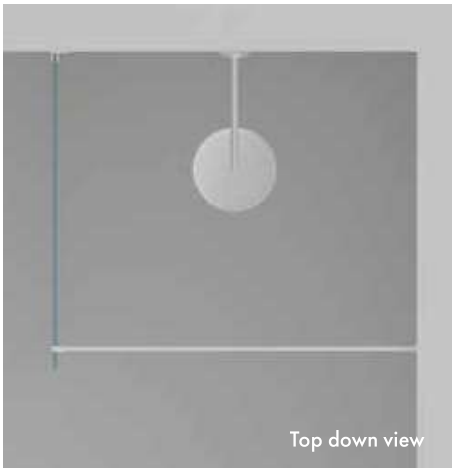
Purity Showerscreens™ round horizontal support arm

Chrome plated, matt black, brushed brass/gold, matt white, gunmetal, brushed nickel & pearl satin finishes

Order Code: **P-ARM-1200 (Bianco – Chrome)**
P-ORO-ARM-1200 (Oro – Brushed Brass/Gold)
P-SNO-ARM-1200 (Sno – White)
P-GIO-ARM-1200 (Gio – Gunmetal)
P-NIKL-ARM-1200 (Nikl – Brushed Nickel)
P-PEARL-ARM-1200 (Pearl satin)

- Fix horizontally from wall to top of glass panel
- Easy horizontal fixing solution for stabilising single glass panels
- Horizontal fixing – hidden fixing into wall (internal CSK screw)
- Width adjustable up to 1200mm – simply cut stainless tube to required length
- Suitable for 8mm & 10mm glass
- Friction fit to glass panel (no hole in glass required)
- Manufactured in solid brass with SS304 tube





Images & drawings are not to scale

PURITY SUPPORT ARMS

Easy width adjustment!

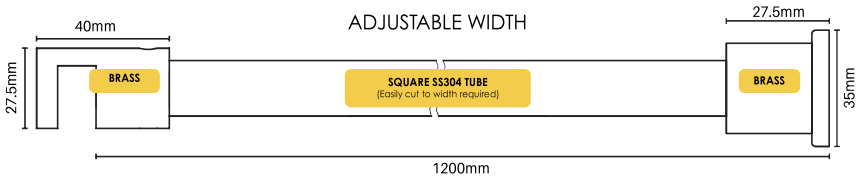
Simply cut to desired length and reattach fitting with grub screws

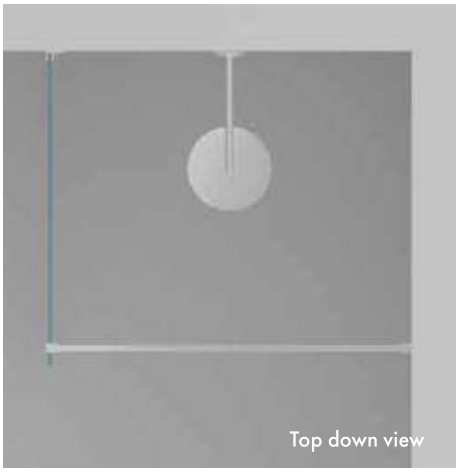
Purity Showerscreens™ square horizontal support arm

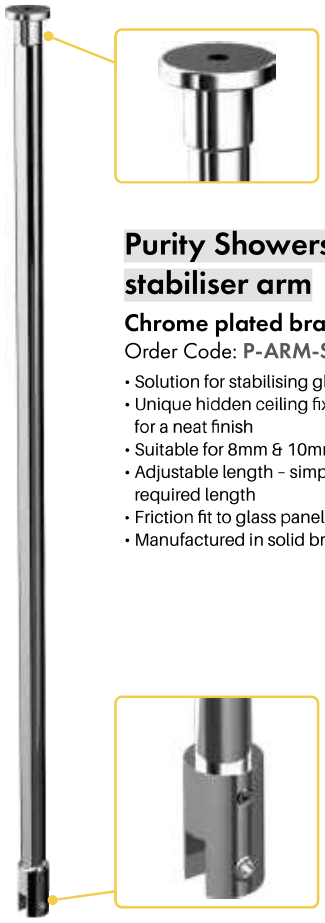
Brass & square SS304 tube

Order Code: **P-ARM-1200-SQ (Bianco – Chrome)**
PN-ARM-1200-SQ (Nero – Black)

- Fix horizontally from wall to top of glass panel
- Popular square design
- Easy horizontal fixing solution for stabilising single glass panels
- Horizontal fixing – hidden fixing into wall (internal CSK screw)
- Width adjustable up to 1200mm – simply cut stainless tube to required length
- Suitable for 8mm & 10mm glass
- Friction fit to glass panel (no hole in glass required)
- Manufactured in solid brass with SS304 tube







Easy height adjustment!

Simply cut to desired height and reattach fitting with grub screws

Purity Showerscreens™ vertical stabiliser arm

Chrome plated brass & SS304 tube

Order Code: **P-ARM-ST (Bianco – Chrome)**

- Solution for stabilising glass panel from a ceiling
- Unique hidden ceiling fixing (internal CSK screw) for a neat finish
- Suitable for 8mm & 10mm glass
- Adjustable length – simply cut stainless tube to required length
- Friction fit to glass panel (no hole in glass required)
- Manufactured in solid brass with SS304 tube

L ANGLE BRACE

HOW TO INSTALL

STEP 1

Install glass fixed panel

STEP 2

Position brace onto glass panel and secure using friction screws. Mark fixing position to wall and then remove brace. Pilot hole drill for fixings (and wall plugs if required)

STEP 3

Replace brace, affix to wall and then secure to glass panel with 2 x friction screws

STEP 4

Install 2 x cover plates to hide fixings

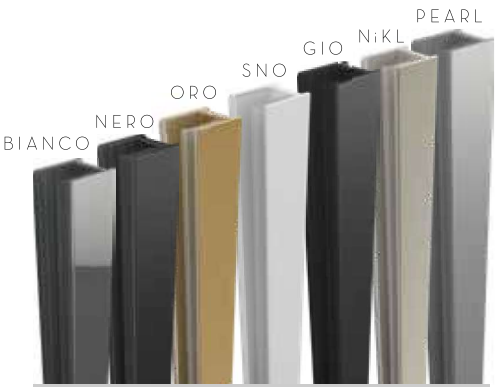
U CHANNELS

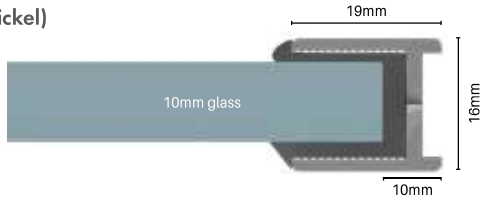


Purity Showerscreens™
Aluminium U channel

Chrome plated, matt black, brushed brass/gold, matt white, gunmetal, brushed nickel & pearl satin finishes

Order Code: **P-U-2100 (Bianco – Polish)**
PN-U-2100 (Nero – Black)
P-ORO-U-2100 (Oro Brushed Brass/Gold)
P-SNO-U-2100 (Sno – White)
P-GIO-U-2100 (Gio – Gunmetal)
P-NIKL-U-2100 (Nikl – Brushed Nickel)
P-PEARL-U-2100 (Pearl satin)

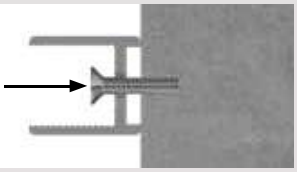
- Slimline dry glaze system - no need for silicone on glass
- Fast installation
- Suitable for 10mm clear glass
- Consider using when wall is out of square (up to 6mm)
- Internal ribs hold secure 2 part clear glazing PVC
- U channel and 2 part clear glazing PVC included
- 2100mm long - easy to cut shorter if required
- Positions glass edge 10mm from wall



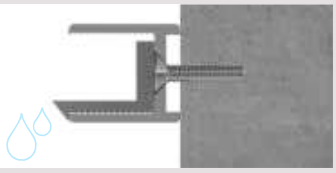
2100mm long

After cutting the U channel to size:

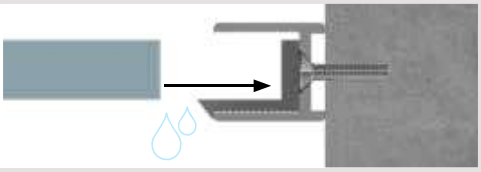
1. Screw the aluminium U channel to wall using counter sunk screws.
(Ensure wall plugs are used if an internal stud cannot be located)
Recommended minimum 3x screw fixings per channel evenly distributed from top to bottom of U channel
(Fixings not supplied – source own fixings depending on substrate)



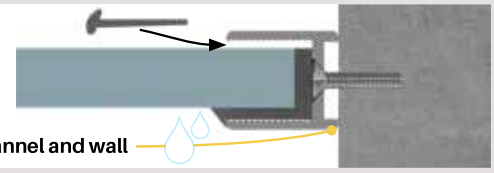
2. Run the L shaped rubber wedge inside the U channel with 'fin' facing inside the shower.
If need be, consider making a hole in PVC where screws are placed to stop PVC bulging out. Screw head must not penetrate past PVC if hole is made.



3. Insert 10mm glass panels



4. With a square offcut of soft pine timber & a rubber mallet, tap in the clear plastic wedge on the outside of the showerscreen, working from the bottom up.

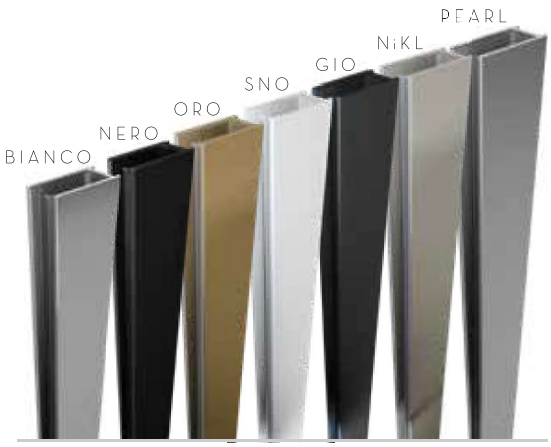


WE STOCK A RANGE OF SILICONES & ACCESSORIES

Images & drawings are not to scale

U CHANNELS

Extended U channel – dry glaze, no silicone required



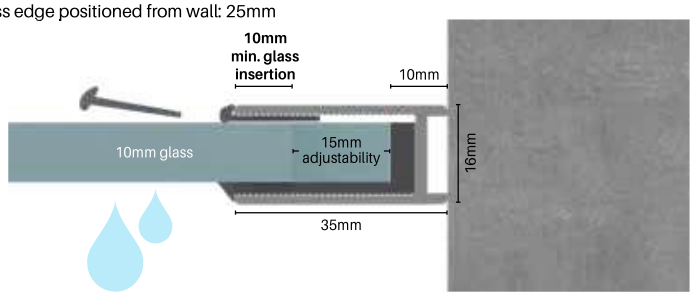
TRADE TIP: Temporarily hold the L-shape rubber in place with tape to assist with glazing the 10mm glass panel.

EXTENDED Aluminium U channel

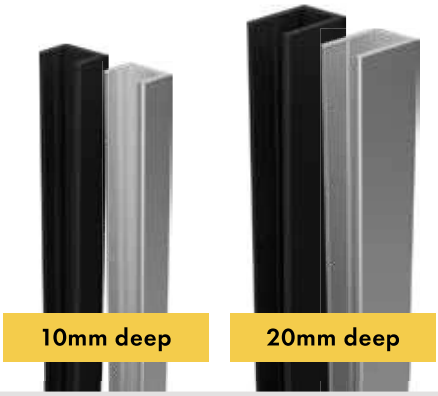
Chrome plated, matt black, brushed brass/gold, matt white, gunmetal, brushed nickel & pearl satin finishes

Order Codes: **P-U-2100-EXT (Bianco – Polish)**
PN-U-2100-EXT (Nero – Black)
P-ORO-U-2100-EXT (Oro Brushed Brass/Gold)
P-SNO-U-2100-EXT (Sno – White)
P-GIO-U-2100-EXT (Gio – Gunmetal)
P-NIKL-U-2100-EXT (Nikl – Brushed Nickel)
P-PEARL-U-2100-EXT (Pearl satin)

- Extended U channel dry glaze system
- Ideal for use when walls are out of square to a large degree
- Provides extra width if required when installing glass panels
- Allows up to 15mm of width adjustment inside U channel
  - Min. distance glass edge positioned from wall: 10mm
  - Max. distance glass edge positioned from wall: 25mm



Wet glaze – silicone required



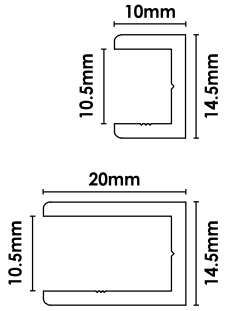
10mm anodised U channel (wet glaze)

Order Code: **P-UWET-2500-10MM (2500mm)**
PN-UWET-2500-10MM (2500mm)

20mm anodised U channel (wet glaze)

Order Code: **P-UWET-2500-20MM (2500mm)**
PN-UWET-2500-20MM (2500mm)

- Wet glaze U channel system – silicone required
- 2500mm long – adjust length by easily cutting channel
- Suits 8 & 10mm glass
- 2 finishes: Aluminium clear/satin anodise and black anodise
- 2 channel depths: 10mm or 20mm deep
- U channel can be used to secure panels to wall, ceiling or floor
- Commonly used as recess fit into tiles/wall



Common installation types

FIX TO WALL, CEILING OR FLOOR

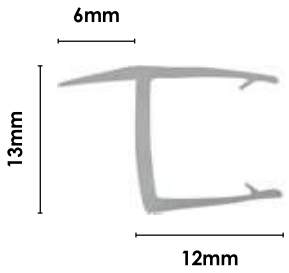
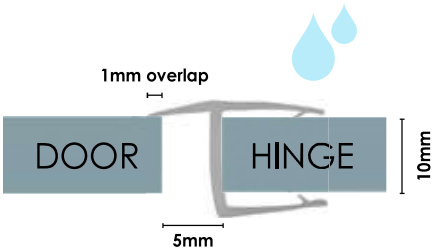
WATER SEALS



PVC hinge gap water seal

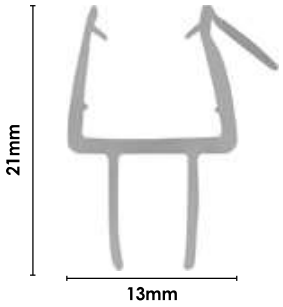
Order Code: **P-SH10-2100 (2100mm)**

- Water seal between hinge panel and door
- Suits 10mm thick glass
- U section - rigid PVC
- Single leg – 6mm flexible PVC
- Anti-mould additives included in PVC
- Simply snap onto hinge panel
- Available in 2100mm lengths



IF NO WATER BAR REQUIRED

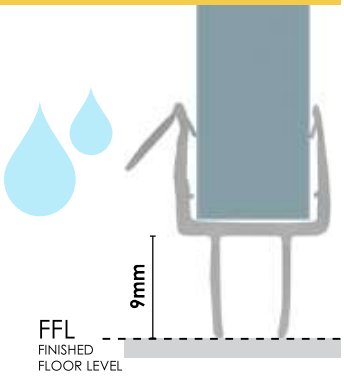
OPTION 1



9mm PVC under door water seal

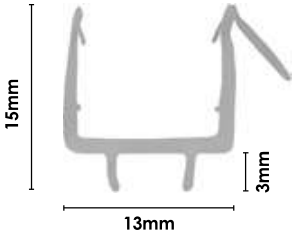
Order Code: **P-SD10-0600-09F (600mm)**
P-SD10-2100-09F (2100mm)

- Water seal under glass door with 9mm wipes
- Suits 10mm thick glass
- U section - rigid PVC
- 2x vertical leg wipes – 9mm flexible PVC
- 45 degree angle drip rail incorporated
- Anti-mould additives included in PVC
- Simply snap under glass door panel
- Available in 600mm and 2100mm lengths



IF USING A ROUND WATER BAR AND UNDER DOOR SEAL

OPTION 2



3mm PVC under door water seal

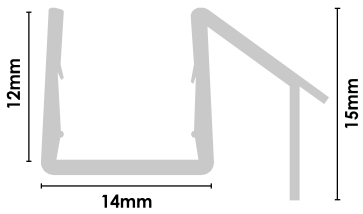
Order Code: **P-SD10-0600-03F (600mm)**
P-SD10-2100-03F (2100mm)

- Water seal under glass door with 3mm wipes
- Suits 10mm thick glass
- U section - rigid PVC
- 2x vertical leg wipes – 3mm flexible PVC
- 45 degree angle drip rail incorporated
- Anti-mould additives included in PVC
- Simply snap under glass door panel
- Available in 600mm and 2100mm lengths
- Use in conjunction with our anodised aluminium or clear acrylic water bars

Refer option 2A, 2B, 2C on following page for use with water bars

IF USING A RECTANGULAR WATER BAR AND UNDER DOOR SEAL

OPTION 3



Slimline PVC under door water seal

Order Code: **P-SD10-2100-SLIM**

- Slimline water seal designed for minimal clearance under door
- Suits 10mm thick glass
- Anti-mould additives included in PVC
- Simply snap under glass door panel
- Designed to be used in conjunction with 9mm high rectangular water bar
- Available 2100mm long

Refer option 3 on p51

EXTRAS & ACCESSORIES

Soudal kitchen/ bathroom silicone

TRANSLUCENT – 300mL

Order Code: **SOUD-KBS-TRANS**

- Translucent finish
- High quality, neutral cure silicone
- Easy to smooth & finish
- For sealing, waterproofing and bonding applications
- Contains mould & mildew inhibitors
- Colourfast and UV resistant
- Strong adhesion to glass, tile, ceramics, aluminium, metals (including powder-coated & anodised), painted surfaces, fibreglass, stainless steel
- Use standard caulking gun

Soudal kitchen/ bathroom silicone

WHITE – 300mL

Order Code: **SOUD-KBS-W**

- White finish
- High quality, neutral cure silicone
- Easy to smooth & finish
- For sealing, waterproofing and bonding applications
- Contains mould & mildew inhibitors
- Colourfast and UV resistant
- Strong adhesion to glass, tile, ceramics, aluminium, metals (including powder-coated & anodised), painted surfaces, fibreglass, stainless steel
- Use standard caulking gun

Soudal all purpose silicone

300mL

Order Code: **SOUD-APS-B**

- Black finish
- High quality, neutral cure silicone
- Ultimate all rounder silicone (roof/ gutter, kitchen/bathroom, glass/ glazing)
- For sealing, waterproofing & bonding applications
- Strong adhesion to ceramics, glass, aluminium (including powder coated & anodised), PVC, stainless steel, zinc & galvanised coated surfaces, timber, concrete, fibreglass, laminate, painted surfaces, etc
- UV resistant with very good mould resistance (biocide with fungicidal action)
- Water potable & food safe
- Use standard caulking gun

Bostik 6S

300G – TRANSLUCENT

Order Code: **P-S-6S**

- Translucent finish
- High performance neutral cure silicone sealant
- Contains a mould and mildew inhibitor
- Seals water tight - UV and weather resistant
- Designed for use in showers, baths, sinks and laundries

Compatible substrates:

- Glass
- Ceramic tiles
- Grout
- Aluminium
- Steel
- Masonry
- Most plastics

Purity silicone spatula

MEDIUM FLEXIBILITY

Order Code: **P-SS**

- Handy tool for glazing panels with silicone
- Made from thermoplastic polyurethane - good elasticity and resistant to oils, grease & abrasion
- 1 x corner features radius (R4) for neat silicone finishing

Purity clear setting blocks

1.5mm x 12mm x 50mm

Order Code: **P-SB**

- Position under glass panels to separate bottom edge of glass from floor

Glass gloves – pair of 2

ONE SIZE FITS ALL

NOT FOR USE WHEN WET

Order Code: **GLOVE**

Ultraloc Threadlocker 3242 compound

10ML BOTTLE

Order Code:

ULTRALOC-3242

- Medium strength removable grade threadlocking compound for metal screws, nuts and fasteners from 6mm to 20mm in diameter

Images & drawings are not to scale

EXTRAS & ACCESSORIES

Tile drill bit

Tungsten carbide bit
Order Code: **P-BIT-6MM (6mm)**
P-BIT-7MM (7mm)
P-BIT-8MM (8mm)

- Available in 6mm, 7mm or 8mm diameter
- For smooth drilling into ceramic tiles, brick, fibreglass & plastics
- Tungsten carbide bit with copper brazing
- Diamond facet spear point for precision penetration
- Bits fit into standard drills

THE PERFECT FINISH EVERYTIME.

Our new hardware swatches allow for clients to select the perfect finish everytime. Compact & portable for meetings or for your showroom display.
