BLITZ GLASS

Showers Framed

Trilogy Range

TRILOGY SERIES OVERVIEW

The TRILOGY showerscreen system, available in bright polish or matt black frame finish, is a stylish and affordable semi-frameless solution for any bathroom. The overlapping pivot door system enables incredible width adjustability. This flexibility of installation does not compromise quality or aesthetic appeal.

Adjustability having regard to both width and wall squareness is the key to the TRILOGY Series allowing ease of install and overcomes the traditional problem of exact sizes needed for a specific shower openings.

KEY FEATURES

• Cost effective

• Bright polish or matt black frame finish

• Inline and return panels are pre-assembled for fast installation

• 1950mm high

• Achieve widths from 795mm to 1550mm with Inline range* (ie fixed panel and pivot door)

• Return panels in 3 popular widths (or frame extrusion kits available to make any width)

• U channel installation against walls overcome out of square issues

• Robust pivot door system featuring superior water leakage prevention with "L" shape bottom rail and magnetic door close

The Trilogy system is a robust, easy to install pivot door showerscreen that is stylish while providing superior protection against water escape.

*Cannot achieve between 1370mm and 1405mm

FACTORY FEATURES

We are committed to supplying the trade with the finest quality goods at Australia's most competitive prices. Production of the TRILOGY series is undertaken at a world leading production facility utilising detailed quality control procedures. Examples of control measures in place:

Comprehensive internal carton packing to minimise transport and storage damage

Carton cardboard tested for strength and breakage points. Thick cardboard is used for long term storage safety

In-house salt spray testing – tests aluminium extrusion for durability of coating

TRILOGY SERIES SYSTEM OVERVIEW

1 Grade 'A' toughened glass - AS/NZS2208 compliant
Door & return panel 6mm clear toughened; fixed panel 5mm clear toughened - Silk screen compliance logo on glass

2 Pivot hinges - High quality
Stylish square shape; smooth function and minimal friction for ease of operation
Pivot door allows for overlap of fixed panel = water seal

3 Magnetic closure & water seals
Full length magnetic door seal for rattle free closure and provides enhanced water seal
Bottom door seals also included

4 Fully frameless door with round knob
Modern fully frameless 6mm clear toughened door
Solid polish door knob for durability (not chromed plastic)

5 Slimline strong aluminium frame
Silver polished anodised frame with minimalist low profile framing system
'L' shape extrusion profile at door base minimises water escape potential

6 Fully reversible door - left or right opening
Simply flip and rotate pre-assembled fixed panel with door to suit left or right opening - so easy!

**7 U channels allow flexibility for installation**
Slimline profile U channels allow installation for out of square wall situations
Additionally U channels allow 20mm extra width adjustment

**8 Install on tiles or showerbases**

9 Return panel install is so easy
Simply slide the innovative 90 degree adapter into inline panel
Then insert return panel to complete!

**10 Easy telescopic adjustment: WIDTH ADJUSTABLE**
Innovative design allows extrusion to telescopically move in & out for door width adjustment

INLINE CONFIGURATION

IDEAL BETWEEN WALL OPENINGS

7 Sizes available:

800mm wide x 1950mm high
850mm wide x 1950mm high

TRILOGY SERIES RETURN KITS

For custom sized RETURN panels, complete kits are available in bright polish or matt black with all items except the 6mm toughened glass panels (or 6.38mm laminated glass). The complete kit avoids the requirement to purchase long lengths of extrusions, glazing rubber and accessories separately. The kits are packed in sturdy cardboard cartons for ease of storage and handling. Contact us for easy to use Excel calculator which specifies cut lengths of aluminium and make size of glass.

Simply input return panel width and height required and the Excel document provides the specifications.

Framed return panel kit
